

B. ANAMEKA

Student at B.Sc. Computer Science with Artificial Intelligence

✉ anamekaanameka25@gmail.com ☎ 9047017678 📅 2006-05-05 ♀ Female

🌐 [linkedin.com/in/anameka-b-084591372](https://www.linkedin.com/in/anameka-b-084591372)

CAREER OBJECTIVE

Driven Bachelor of Computer Science student specializing in AI, dedicated to transforming skills into impactful real-world solutions.

ACADEMIC PROFILE

B.Sc. Computer Science with Artificial Intelligence, Jeppiaar College of Arts and Science
2023 – 2026 | Chennai, Tamil Nadu, India
Grade: 8.0 / 10

TECHNICAL SKILLS

Software Tools — MS Office, Visual Studio code, Canva and GitHub, PowerBI, IBM Cognos Analytics,
Programming Languages — Python, R-Studio, JavaScript, HTML and CSS

AREA OF INTEREST

ARTIFICIAL INTELLIGENCE | DATA SCIENCE | DATA ANALYTICS | IoT | UX-UI Designing

PROJECTS

PrecisionStop: Smart Transit Optimization System

2024

Engineered a sensor-driven bus stop solution that dynamically aligns bus arrivals with real-time demand, improving scheduling accuracy and public transport reliability.

SignMate: Intelligent Sign Language Communication Platform

2024

Designed an AI-powered chatbot that translates sign language gestures into real-time text, improving accessibility and communication for the hearing-impaired community.

INTERNSHIP EXPERIENCE

Digital Marketing Intern, Hawking Path

Chennai, Tamil Nadu, India

Managed content and social media campaigns to enhance audience reach.

IT Intern, Simon and Sons

Chennai, Tamil Nadu, India

Gained hands-on experience in software setup, troubleshooting, and website testing.

IBM MINI PROJECTS

Basic ATM System in C Language

A console ATM simulation that allows users to securely conduct banking operations like balance inquiries, withdrawals, and deposits using C programming.

HEALTH LINK- An Innovative Hospital Management System

A centralized digital system that enhances patient records, scheduling, billing, and hospital operations for efficient healthcare management.

World Currencies - Real Time INR conversion

A real-time currency conversion application that fetches live exchange rates and converts global currencies into Indian Rupees (INR).

Smartphone Usage Patterns and Predictions

A data analytics project that studies smartphone usage behavior and predicts future trends using statistical analysis and machine learning.

Behind the Wheel: A data- Driven Perspective on Traffic Safety

An analytical system that examines traffic accident data to identify risk factors and improve road safety through data-driven insights

Resume Screening with Machine Learning

An AI-based solution that automatically analyzes and filters resumes based on job requirements using machine learning algorithms.

Live Face Mask Detection Platform

A real-time computer vision system that detects whether individuals are wearing face masks using deep learning and webcam/video feed.

CERTIFICATIONS

Python for Data Science, NPTEL

Joy of Computing, NPTEL

Introduction to Cloud Computing, NPTEL

Internet of Things, NPTEL

CONFERENCES

AI-Driven Forensic Auditing: Transforming Financial Fraud Detection, *National conference at JEPPIAAR COLLEGE OF ARTS AND SCIENCE, PADUR.*

2025

It leverages artificial intelligence to revolutionize the detection and prevention of financial fraud.

Unveiling the Dark Web: An Analytical Perspective on its Role in CyberCrime, *National conference at GOVERNMENT ARTS COLLEGE, NANDANAM.*

2025

It explores the role of the dark web in facilitating cybercrime through an indepth analytical perspective.

Enhancing Game AI Decision-Making with Bayes Theorem and Regression Model, *International conference at SRI MALOLAN COLLEGE OF ARTS AND SCIENCE, MADURANTHAKAM.*

2025

It explored how probabilistic and statistical models improve AI decision-making in games, using Bayes' Theorem for adaptive strategies and regression for player behavior prediction.

Analysis On Existing Chatbot and Its Challenges, *International conference at SRM RAMAPURAM.*

2024

It evaluates current chatbot systems, highlighting their limitations and areas for improvement.

Software foundation course with C Programming, IBM

Business Intelligence, IBM

Data Visualization, IBM

Machine Learning using Watson Studio, IBM

Machine Learning with Python, IBM

Web Development, IBM Skills Build

OOP in Python, Infosys Springboard

Basic of Python, Infosys Springboard

Build Your First Chatbot, IBM Skills Build

Collaboration and Networking, Naan Mudhalvan

TNSDC – FEWD & Cloud, Naan Mudhalvan

Introduction to Automation, UI Path

Build Automations with Solution Accelerators (v2022.10), UI Path

ACHIEVEMENTS:

Debates and Speaking Skills

Active participant in national and intercollegiate debate competitions.

International Conference Presentations

Presented AI-based research at international academic forums.

National Conference Presentations

Contributed to national discussions on AI and tech advancements.

Contributed to the team's top 10 finish in Intercollegiate level Hackathon.

EXTRACURRICULAR ACTIVITIES

Department President – Artificial Intelligence & Data Science

Member, Entrepreneurship Development Cell (EDC)

Campus Ambassador, IIT Bombay.

Community Tech Awareness Volunteer

Student Innovation & Hackathon Engagement

Stage Management & Public Speaking

LANGUAGES KNOWN

Tamil

English
